In case you didn't have a chance to look it up on our webpage, here is a picture of the group that went to Kodak Theatre in February of 2008. I hope that you all got better pictures this time around. It is now spring (well it will be about midnight tonight). Last year I wrote about spring cleaning. I will still be doing a lot of that this next month or so. It is also the time to get all your information together for income taxes, if you

haven't done it already. I was just thinking about how things have changed so much in the last 30 or 40 years. The tools that one would use for spring cleaning have changed a lot. Now the vacuum cleaner doesn't have a bag to empty/replace, and it does a much better job, too. You don't have to get down on your hands and knees to scrub the floors, there are new mops and new cleaning/waxing solutions to help with that. There is the automatic dishwasher (and I don't mean your children or the wife). Back then you might have to dust and rearrange your books, now you have to do the same with your video tapes or, more probably, your DVDs. Back then you would have to clean your records and record player, now it is your CDs and CD player. The tools we have for paying bills and doing our income taxes have changed, too. I remember writing a check for each bill and mailing it. Now I pay all my bills on-line; I don't mail a single one. Then you had to remember to send the house payment each month. Now, each month, the bank takes it out of your checking account and gives it to the mortgage company for you. I use to spend a lot of time doing the calculations for my income taxes. Now I enter all my data into a program on my personal computer and let the program do it. I even file my taxes electronically and, if I get a refund, the money is automatically deposited in my bank account! Things are surely much easier than they were 30 or 40 years ago. And yet, we don't seem to have as much time. Why is that?

A word aptly spoken is like apples of gold in settings of silver.
 Proverbs 25:11
